

**Dr. Carla Cáceres** is Director of the School of Integrative Biology and a professor in the Department of Animal Biology at the University of Illinois at Urbana - Champaign. She has affiliate appointments in the Carl R. Woese Institute for Genomic Biology, the Institute for Sustainability, Energy and Environment, and the Prairie Research Institute. Her research is focused at the interface of population, community and evolutionary ecology and addresses questions such as how biodiversity influences the spread of infectious diseases. She joined the University of Illinois faculty in 2001 and has been involved in several initiatives aimed at transforming undergraduate education and broadening participation in STEM. She received her B.S. in Biology from the University of Michigan and her Ph.D. in Ecology and Evolutionary Biology from Cornell University.
